Two Big Strikes

The switchman in Enffalo on the New York Lake Erie and Western, the Lebigh Valley for higher wages and short time on Saturday week The switchmen are employed to comple in coming over to Washington this week than trying to bring pressure to not those who handle the switches. Early not those who handle the switches Early on Sunday morning three incendary frees were stated in the freight yaid of the Lehigh Valley road. Eighteen freight cars loaded with merchandise, two passenger coaches and two office buildings were burnaled and wrecked, and a passenger train thrown off the track. All freight triffe has been blocked. The 56th and 74th Regiments, New York militia, were ordered to Buffalo the Sheriif and his deputies being unable to control the mob. The situation daily becoming more critical, Gov. flower, on Thursday ordered 8,000 State militia to Buffalo. did not care to write, where they would On Thursday ordered 5,000 State lands to Buffalo President McLeod says no concessions will

President McLeod says no concessions will be made, and that they have more than enough men to take the places of the strikers as soon as protection can be given them. The Reading Company offered a reward of \$5 000 for conviction of parties guilty of violence to its employees or destruction of its property. While traffic has been blocked and considerably delayed no serious apprehension exists as to the outcome. The Reading secured men to amply fill the places of the strikers, and they were distributed along the Lebigh Valley division. Yesterday despirches say so far as the railways are concerned the strike is ended Trains are being moved under the protection. asing money in the departments differs mittee has not made anything like an assessment it will be glad to receive ment will be placed in the hands of Trains are being moved under the protection of the militia as rapidly se usual, and the blockade is being gradually raised. Men enough have been found willing to take the till remain on the ground in full force, and inless the now beaten strikers can induce unjess the now beaten strikers can induce the other rulway employes to strike in sym-pathy the sooner they acknowledge them selves beaten and take themselves out of the contest the better. As yet there is no base except wild numor for the belief that fire the so-called people's party movement men, trainmen, engineers or telegraphen all of the Southern States, hoping will strike

The intent of this rainbow is so plain strikers overpowered the military grand and that the Democratic leaders do not be heve that any considerable number of Democratic voters in the South will all low themselves to be used as cats pass to pull the Republic in classification of the fire of popular disapproval.

Representative McLeary who isla member of the Democratic National committee, and who is known as a very close observer of things political passed through Washington this week on its with home and in reply to questions as to the outlook said. "I have tilked with the managers in New York, and have looked about generally for the purpose of finding out as much about the situation as possible. ### Small Farms

So marked is the tendency in this country to cover a large area with a small capital that it might properly be termed an Americanism. We are es pecially convinced of the truth of this when we understand that in no other country is this mode of procedure em ployed by the farming classes

To the American farmer the vicissi tudes sometimes following agricultural pursuits entail nothing, apparently nore magasable than the abridgement of his ideas, the disposal of a portion of the farm, and adapting himself to things on a small scale

To own a vast tract of farming land, and to apply to it a management proportionately extensive, have been a part of the farmer's education, both by precept and example. He has learned not so much to give vigilant care to small daily expenses as to the calculation of net profits that will accrue to him, from his soil productions at the end of the

These mistaken ideas can only result in one way, and the failures might serve as warnings to point out a false garded Americans would do well to look into

the mode of farming employed in Eu ropean countries, especially into those of Holland and France Farming there has been reduced to a science, and from their economically-planted, well drain ed and fertilized patches they produce as much as is realized in this country on land treble the area In the earlier history of the country

and especially in the South, where labor was cheap and plentiful, there was some show of reason for the purchase of large bodies of cheap farming lands though to the man of madequate capi tal the reasons against it, then and now are the same. In the past few years the increased value of well located farming lands, the uncertainty and high price of labor, and the growing necess ty for fertilizing, have formed a combi nation exceedingly menacing to the purchasers of large farms on deferred payments some of which are dependent When a mar of limited capit il buys "

small farm within his purchase money and refuses to be led off by the entieing prospects of a larger one on long pay ments in excess of his immediate capital, he gives evidence of rare wisdom which not often receives the endorse ment it deserves It is not the size of the farm that in sures success, but the economical hy ng

following just remarks are copied from a late number the London Garden

A narrow step of woods left on the crest of the hills, and on the north and west sides of m my firms would pay a large interest by the increase of the crops which would result from such shelter on the remainder of the farm. Where the woods have been cut awar I think it would pay well to plant these stips, and by good care to promote their growth as rapidly as possible Quick-growing species in this case should be selected, such as chesthuts, maples and poplars. I have for soveral vears allowed all young trees growing along the fences to grow. I have trimmed them, and quite a number have grown so maidly that I have trees which will soon be fit to cut for rails and posts. They take no room, shelter the held, and give some shade for cattle. a late number the London Garden

A NOVEL use has been evolved for the very commonplace and mexpensive blue yeans In a handsome apartment the floor is covered with blue jeans, over which a heavy Smyrna rug of Jellow browns, with a dash of Persian red, is laid. The furniture is blue and gold and the hangings are blue and gold and the natural blue of the seans afford an artistic background.

WHEN one is taken with a sudder cold in summer there can be no better treatment than to eat a raw onion and go into a retreat until the unpleasant effects of the vegetable have worn away Onions are also excellent medicine in the first stages of malaria, and if eaten regularly wal keep the system in a condition hostile to disease.

### Fruit as Medicine Grapes come first, especially black

gapes, which are most rutritious and at the same time purifying to the blood Grupe cures are quite the fashion in some parts of the continent, and are said to work minacles at times Peaches also are most hygienic to the human system, as well as being one of the mos exquisite fruits in nature. Nothing in deed is more palatable, wholesome and medicinal than a good ripe peach Peaches however, should not be eaten over ripe. They may be eaten at meals or between meals, they are particularly hygienic when eiten at breakfast. Ar lyspepsia sooner than anything else Apples are also very hygienic, especially hen baked or stewed. They are exellent in many cases of allness and are ar better than salts, oals or pills. Seems like a large sum for one firm to have invested in readymade Clothing in Gettysburg.

It is true, nevertheless, and as the senior member of the firm wishes to withdraw and that they may turn this into good hard cash, Stine & Son are selling their entire stock off at cost.

Just step in and examine goods and learn prices.
